

elfa® – Unmatched Versatility and Flexibility

BuiltRite Solutions (www.builtritesolutions.com), based in Plano, Texas, is the exclusive commercial wholesaler for elfa® Storage and Shelving Solutions in North America. We sell direct to large accounts, and support a national network of commercial dealers and resellers.

Our focus is primarily commercial closet and storage solutions for:

- Residential (Condo, Senior Living/CCRC, Apartment, University Residence Hall)
- Healthcare facilities (Hospitals, Clinics, Rehab Centers)
- Education (K-12, College/University facilities)
- Commercial Office/Retail Storage.

elfa® is being specified in projects across the U.S. because it is a cost effective alternative to millwork and cabinets, is easy to install, and provides a host of storage and organization accessories. A very versatile storage product, elfa® provides unique flexibility and easily adapts to changing storage and inventory management requirements in just a few minutes. elfa® is also an excellent green alternative to many traditional high emission pressed wood products.

Some of our satisfied customer and project types include: Staubach Companies (K-12), Vanderbilt University (University Housing), Brinker International (Retail-Food Services), Blockbuster (Retail – Back Office Inventory), Concentra Health Centers, Texas Health Resources and Baylor (Healthcare Storage), Post Properties, Procida Construction (Multi-Tenant/Condo), and Erickson Retirement Communities (CCRC).

elfa® can be designed and customized to new construction and remodel specifications, adding value and lowering cost for your projects. Where other storage solutions may fall short on quality and flexibility, elfa® is backed by a 10 Year Limited Warranty, and can be easily reconfigured as storage needs change. BuiltRite Solutions offers planning and design assistance to make the decision to use or specify elfa® even easier.

Please find enclosed some of our product literature as a reference for your construction projects. Should you have any questions, or need any additional information, please contact us at the number below. Thank you for your consideration.
