

BACK OFFICE - FINANCIAL INSTITUTION

Hanging track around the entire room ensures the flexibility of the elfa product. Move the server, and you could create another work area with more shelving.

Marketing materials and brochures are readily accessible and easy to see. Dividers separate products for easy organization.

Situation: New office desiring flexible, attractive solution to combine work space and storage in one area.

Solution: With elfa® track installed around the entire room, the customer began with available space; installing a work area and collateral materials storage. elfa® Shelf Baskets with dividers organize marketing materials in a way that makes them accessible and plentiful, alleviating need for large box storage. Supply area with 6 ft ventilated shelving is clean and easy to see what is on shelves.
