

IT ALL BEGINS WITH A

TRACK AND A STANDARD

The elfa® track and standard 'backbone' shelving system provides the ultimate in *flexibility* and *function*. A typical storage room can **increase capacity by 200%**, simply by *planning storage from the ceiling down*.

elfa® COPY SOLUTION

PROVEN FLEXIBILITY

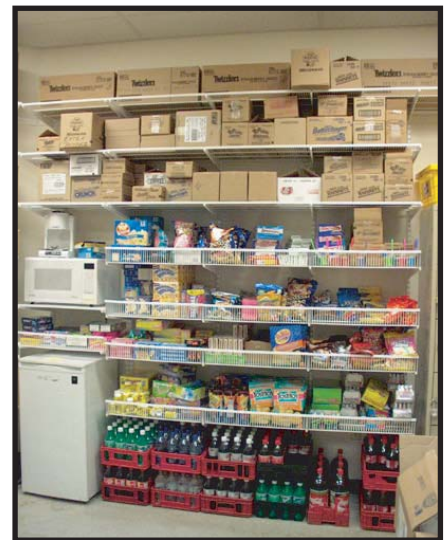

AS INSTALLED

RECONFIGURED

A hospital in Texas needed a form storage solution that was easy to access and that could accommodate a large inventory. Shelving was installed in 2 ft. increments for flexibility. After working with it, the customer reconfigured the shelving themselves to perfect configuration for them.
