

elfa[®] HEALTHCARE

Storage and Shelving Solutions

A few great reasons to use elfa[®] products in your healthcare facility:

- The elfa[®] track and standard system allows for a desktop/office area within a storage room.
- The combination of an elfa[®] island, drawer systems, shelf baskets, ventilated and solid shelving creates a fluid storage environment.
- Small areas become functional stations with a little creativity and elfa[®] planning (see coffee/snack station).
