

BEFORE: Large store room in hospital with multiple uses needed organization and more storage space - movable carts not necessary, unstable for stationary purpose.

AFTER: elfa[®] provided the ideal solution. Shelves can be adjusted at will and the customer received another benefit over prior solution - an extra shelf!

BEFORE: Small storage room with no room to add any more shelf carts. Above shelves are random mix of individual shelf/carts.

AFTER: Customer replaced standard 4 shelf carts with 5 shelves of elfa[®]. Shelf baskets eliminate need for as many micro bins, providing a more organized and effective solution.
