

# elfa® COLLEGE HOUSING

Storage and Shelving Solutions

4' single closets

3' center pair closets

## Residence hall renovation utilizes the existing closets for more usable storage

Retrofitting **elfa®** into existing closets was a great solution for this residence hall attempting to give each closet a similar treatment.

Faculty closets (below) are now equipped with plenty of hanging areas along with shelving on the sides for storage - a far cry from the typical *one shelf/one rod* scenario.

Faculty storage closet

Faculty master closet - shelving also installed on side walls of the closet
