

WHY USE **elfa**® IN RETAIL?

1

Chain Link Storage Room
Wall A
31'2"

Chain Link Storage Room
Wall B
31'2"

As seasons and products change store rooms need to be adaptable and flexible. **elfa**® provides the ultimate in flexibility and ease of use. The above configurations are simply rearranged - same parts and pieces.

2

Floor to ceiling **elfa**® combined with tradition track and standard **elfa**® is a winning combination.

Unlike many shelving units, all **elfa**® parts are totally interchangeable.

3

Shelving can be solid or ventilated as shown above. Weight capacity with vertical standard 24" apart is 125 lbs. per linear foot. With a variety of depths, 12", 18" or 20", your product is visible and space is used efficiently.
